

HANKSUGI JAPAN

PREMIUM COMMERCIAL TIRES

QUALITY IS OUR CORE. IT'S OUR CONCEPT.

DINAMIC RANGE

SAVE FUEL PROTECT THE ENVIRONMENT

Founded and registered in Japan in 2002, **HANKSUGI** is one of the top tyre manufacturers in the world. Our team of top Japanese engineers ensure that Hanksugi tires are designed and produced with excellent performance on grip, low rolling and wear resistance, good traction and long mileage.

HANKSUGI also produces high quality steel and aluminium rims as per customer's specifications.

MULTIPLE AUTOMOTIVE is the sole distributor of **HANKSUGI** tires in Uganda.

GREEN TECHNOLOGY

Hanksugi tire rubber manufacturing chemical compound has been awarded for its environmental and fuel saving component. The products are non-toxic and meet the European Union Standards. Our TBR tires have passed many tests and certifications in different countries to meet different customers' and governments' requirements.

MORE DURABLE... LESS USE

EXCELLENT PERFORMANCE

The performance of Hanksugi TBR tires conditions has outstanding price per kilometer results, with a 5 year warranty, 2 cap guarantee and dynamic ranges. We are positioned in more than 80 countries. Ride with Hanksugi and keep the world moving.

HS26+

TRAILER POSITION

- Steer and trailer position, suitable for highway and good roads.
- Excellent anti-side-skid
- Low rolling resistance, Low noise,
- Low heat generating and good high speed driving character.
- Four decoupling grooves to equalize weight distribution, reducing irregular wear.

**REGIONAL
USE**

HS28+

DRIVE POSITION

- Drive position, suitable for highway and good roads.
- Extra deep tread for long mileage and improved traction.
- M+S pattern with excellent grip, anti-wearing and anti-uneven wearing character.
- Full depth siping provides excellent traction through the life of tread

**REGIONAL
USE**

HS38

ALL POSITION

- Suitable for highway road use
- Excellent anti-uneven, anti-wearing character and good driving stability
- Good anti-side-skid
- Good drainage characteristic

**ON / OFF
ROAD**

HS58

DRIVE POSITION

- Drive position, for on/off road use.
- Suitable for poor road surfaces
- M+S pattern, with excellent traction character.
- Long mileage and anti-puncture character.

**ON / OFF
ROAD**
